SELECT OPINIONS.

"Publications of the Kashmir Series of Texts and Studies are important documents for all students of Indian Philosophy and Religion and their excellent printing and careful editing enhances their value.

"I am much obliged for the gift of this most valuable and excellently printed work. All scholars in Europe and India owe the Kashmir Government a debt of gratitude for publishing this excellent series of original works dealing with Kashmir Shaivism." Sir George Grierson, K. C. I. E. Ph. D. D. Litt., I. C. S., Superintendent of the Linguistic Survey of India.

"Your publications will be very welcome to scholars in Europe."—Dr. F. W. Thomas.

"Splendid, scholarlike, valuable."—Prof. Garbe.

"Very valuable work do credit to you and to the Kashmir Darbar."—Dr. S. K. Belvalker M. A. Ph. D.

"Read....with extreme pleasure....throws such a clear and brilliant light on a most important branch of thought."—Dr. Barnett.

"Every Indian must be very grateful to Jammu and Kashmir Government in promoting philological as well as historical research in the inexhaustible research of the valley and having the main results published. I hope that the Government will treat liberally the faithful guardians of this old lore, I mean the learned and modest Pandits who still devote their life to the study of Sanskrit manuscripts. I trust India will never forget her own dicta about the honours and favours which are due to the disinterested scholars." A Foucher.

"Judging from the titles and the quick glance at some of columns, I realised the importance of these publications which I hope to study with due care. I have been greatly impressed by the thoroughness with which the editions were prepared and the high degree of scholarship which accompanies the introductions to the texts.

May I wish the editors further success in this most useful work, which is greatly appreciated by the Sanskrit Scholars all over the world." Arnold V. Kunst, Principal Secretary United Nations Commission for India and Pakistan.

"...my impression is that the work done in this Department is one of the finest cultural activity I have come across during my visits in South Asia. I wish to congratulate the staff of the Department as well as the officer-in-charge and wish them the opportunity to continue their work in the future with the same zeal and success." Dr. Alexandar Wolsky, Principal Scientific Officer, UNESCO.
